### **NGSA and Center for LNG Joint Statement on Senate Confirmation of FERC Commissioners**

(Washington, D.C.) – The Natural Gas Supply Association (NGSA) and the Center for LNG (CLNG) today released the following statement on the Senate’s vote yesterday to confirm Laura Swett and David LaCerte to the Federal Energy Regulatory Commission (FERC).

**Dena Wiggins, President and CEO of NGSA, said:**

“We congratulate the two nominees and look forward to working with Commissioners Swett and LaCerte as they take on their new responsibilities. FERC plays an essential role in ensuring that natural gas is able to provide affordable, reliable, and cleaner energy, and that investments in infrastructure match the growth in demand. We look forward to working with FERC to unlock more American energy.”

**Charlie Riedl, Executive Director of the Center for LNG, said:**

“As U.S. LNG continues to expand its role in global energy markets, a full complement of engaged FERC Commissioners is essential to restoring predictability and efficiency in the permitting process. We look forward to working with the new and existing Commissioners to maintain a transparent and timely regulatory permitting process that supports U.S. energy leadership, strengthens our alliances abroad, and advances our shared goals of energy security emissions reduction.”

####

The Natural Gas Supply Association (NGSA) represents integrated and independent companies that supply natural gas. Founded in 1965, NGSA is the only national trade association that solely focuses on producer-marketer issues related to the downstream natural gas industry. NGSA advocates for well-functioning markets that foster a growing, competitive market for natural gas. NGSA is dedicated to achieving a cleaner future through strong partnerships with renewables and supporting innovative technologies and market solutions that reduce emissions. For more information, please visit [www.ngsa.org](http://www.ngsa.org).

-CLNG-

The Center for Liquefied Natural Gas (CLNG) advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. A committee of the Natural Gas Supply Association (NGSA), CLNG represents the full LNG value chain, including large-scale LNG export facilities in the United States, shippers, and multinational developers, providing it with unique insight into the ways in which the vast potential of this abundant, clean and versatile fuel can be fully realized.
