The Center for LNG Congratulates Golden Pass LNG on Export of First Cargo

(Washington, D.C.) – The Center for LNG (CLNG) released the following statement on the announcement from Golden Pass LNG that the first export cargo has been loaded and departed from the facility.

Charlie Riedl, Executive Director of the Center for LNG, said:

“This first export marks an important and exciting day in Golden Pass LNG’s history and the U.S. LNG industry at large. Center for LNG member Golden Pass LNG will be able to provide much needed energy and emission reductions to customers across the globe.

“Golden Pass LNG represents thousands of jobs and billions of dollars invested in the Sabine Pass area through construction, facility operations, and community investments.

“U.S. LNG continues to drive economic growth, support thousands of American jobs, reduce global emissions and strengthen our trade position. This announcement will help unlock even more of those benefits for the United States and for our global energy partners.”

####

The Center for Liquefied Natural Gas (CLNG) advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. CLNG represents the full LNG value chain, including LNG export facilities in the United States, shippers, and multinational developers, providing it with unique insight into the ways in which the vast potential of this abundant and versatile fuel can be fully realized.
