### **NGSA-CLNG Statement on Intent to Nominate Kevin McIntyre to FERC**

(Washington, D.C.) — The Natural Gas Supply Association (NGSA) and the Center for LNG (CLNG) today released the following statement regarding the news of the Trump Administration’s intended nomination of Kevin McIntyre to the Federal Energy Regulatory Commission (FERC).

**Dena Wiggins, President and CEO of the Natural Gas Supply Association** said:

“We applaud the Administration for taking another step in the process of restoring a quorum at FERC. Kevin McIntyre has years of experience in energy expertise and we hope that the Senate will move quickly to consider his nomination, along with Neil Chatterjee, Richard Glick, and Rob Powelson. FERC has lacked a quorum since February and the billions of dollars of investment and thousands of job opportunities in the U.S. continue to be sidelined by a lack of a quorum at FERC. It is essential that the nominees be given the opportunity to be approved as quickly as possible.”

**Charlie Riedl, Executive Director of the Center for LNG** added:

“We are pleased that the Administration intends to nominate another experienced and capable nominee for FERC commissioner. Restoring a quorum at FERC is essential to the LNG approval process, and we hope that Kevin McIntyre and the rest of the nominees will have their floor vote as soon as possible.

####

The Center for Liquefied Natural Gas (CLNG) advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. A committee of the Natural Gas Supply Association (NGSA), CLNG represents the full LNG value chain, including LNG producers, shippers, terminal operators and developers, providing it with unique insight into the ways in which the vast potential of this abundant and versatile fuel can be fully realized. For more information, please visit [www.lngfacts.org](http://www.lngfacts.org).

The Natural Gas Supply Association (NGSA), the only national downstream natural gas association, represents integrated and independent companies that supply natural gas. Established in 1965, NGSA encourages the use of natural gas within a balanced national energy policy.
