### **Statement on Senate Committee Approval of FERC Nominee Bernard McNamee**

(Washington, D.C.) – The Natural Gas Supply Association (NGSA) today released the following statement regarding the news that the Senate Energy and Natural Resources Committee has voted to approve Bernard McNamee as a Commissioner on the Federal Energy Regulatory Commission.

Dena E. Wiggins, president and CEO of NGSA said:

“We applaud the Senate Energy and Natural Resources Committee for its vote to approve Bernard McNamee as a FERC commissioner. We are pleased that FERC is one step closer to having a full complement. As an independent regulatory agency, it’s important for FERC’s work to continue and that works best with a Commissioner in every seat. We are especially appreciative of Mr. McNamee’s strong support for competitive markets and believe that he will work with his colleagues to ensure timely and thorough reviews of proposed pipeline projects. We look forward to the full Senate’s final approval and the opportunity to work with Mr. McNamee.”
