CLNG Applauds Jordan Cove and Pacific Connector Gas Pipeline on their FERC Application

(Washington, D.C.) – The Center for LNG issued the following statement regarding the announcement that the Jordan Cove LNG project and the Pacific Connector Gas Pipeline have filed applications with the Federal Energy Regulatory Commission (FERC) seeking approval for the LNG export terminal and related pipeline.

Charlie Riedl, Executive Director of the Center for LNG said,

“Jordan Cove and the Pacific Connector have taken a great step toward an exciting future for LNG around the globe. It is a major undertaking to complete the rigorous pre-filing and submittal process and demonstrates the commitment of Jordan Cove to bringing the benefits of natural gas to consumers around the world. We applaud the company’s commitment to exports and the thousands of high paying jobs they will bring to the West Coast. It is a long journey to a full authorization and we look forward to supporting the project as it moves through the FERC review process.”

####

The Center for Liquefied Natural Gas (CLNG) is a trade association of LNG producers, shippers, terminal operators and developers, and energy trade associations. CLNG facilitates rational issue discussion and the development of public policies that support LNG’s contribution toward economic growth in the United States.
