The Honorable Tom Carper
Chairman
Senate Committee on Environment and Public Works
513 Hart Senate Office Building
Washington, D.C. 20510

The Honorable Shelley Moore Capito
Ranking Member
Senate Committee on Environment and Public Works
172 Russell Senate Office Building
Washington, D.C. 20510

Dear Chairman Carper and Ranking Member Capito:

The Center for Liquefied Natural Gas (CLNG) and its members support the proposed resolution of disapproval under the Congressional Review Act (CRA) and the reinstatement of regulations of methane emissions from the natural gas sector.

CLNG believes that reducing methane and other greenhouse gas emissions is essential to creating a clean energy future for all. We support the reinstatement of previous methane regulations in addition to voluntary efforts the U.S. LNG industry is proactively taking to address methane emissions. With billions of dollars in investment to reduce methane through innovative technologies and practices, the U.S. LNG industry is serious about tackling methane.

CLNG appreciates the leadership of the many Senate members who recognize the role natural gas and LNG play in reducing emissions across the globe, while also realizing the economic benefits natural gas creates here at home.

Sincerely,

Charlie Riedl
Executive Director, Center for LNG
900 17th St., NW, Suite 500 Washington, DC 20006
