Dear Speaker Johnson, Majority Leader Scalise, Majority Whip Emmer, and Chairman Guthrie,

On behalf of the Center for LNG (CLNG), I am writing in support of H.Con.Res.14, the "One Big Beautiful Bill Act". CLNG supports the goal of growing U.S. LNG exports as they provide thousands of good-paying jobs here in the United States, and generate millions in tax revenue for federal, state, and local governments. LNG exports help to balance the trade deficit, grow our domestic natural gas supply, enhance domestic manufacturing capabilities, reduce global greenhouse gas emissions, and supply our allies and trading partners with a reliable and safe source of energy.

The United States' role as the global leader in LNG exports continues to grow, and for the benefits of LNG to be fully realized, certainty in the permitting process is essential. We appreciate efforts to streamline permitting and reduce uncertainty to unlock more of the benefits of growing U.S. LNG exports. We look forward to working with Congressional leadership throughout the reconciliation process.

Sincerely,

Charlie Riedl
